Latest NEWS and INFO for the NEWSLETTER
MMMonVHF The VHF-DX-Portal
****

** SERVER Trouble at 2010-05-11/12 **

Sorry dear friends but as well like others we have had the trouble
with the Server and DENIC (.de pages was blocked a while).
In case of a sign "failure 403, forbidden..." please be patience.
We are always trying to be back as soon as possible. In these case
we have had no influence on what was happened! MMMonVHF-Team

** SPORADIC E saison, inputs to MMMonVHF and Observation 2010 **

In case of an ES opening on 144 MHz please remember to send all your
QSO in a short Log to MMMonVHF - HOW? PSE go to the MMMonVHF forum:
www.mmmonvhf.de/minibb/index.php?action=vthread&forum=11&topic=80
and read about our "call for reports". The text will be available
in several languages. or use direct the input at:
http://www.mmmonvhf.de/es.php >>> click on "Send your Report"
Remember please that we are going to publish ONLY 144 MHz Logs - if
we get input for 6m, 4m or 3m reports we do use it for the headline.
As you all know, the most necessary at a SPORADIC E Opening will be
to be at the right time at the right place. As well every of us will
have some "warning" systems for the time between May to August.

** The 144 MHz EME Newsletter April Issue... **

Since 2003 DF2ZC publishes the 144 MHz EME NewsLetter. This is
a free service for the EME community. Bernd, DF2ZC, informed us
that the latest edition of the EME-Newsletter is now available
at: http://www.df2zc.de/newsletter - Current Issue April 2010:
EMENL201004.pdf [737 KB] SOURCE: tnx to Bernd, DF2ZC to MMMonVHF

** UFT DX MAIL LIST NOW QRT **

OPDX is sad to report that Maurice, F5NQL, Editor/Manager of the
Union Francaise des Telegraphistes (UFT) DX Mailing List for the
last ten year, has announced that he can no longer maintain the list
"due to some personal reasons". The UFT Mailing List ended effective
on May 4th. OPDX (and as well Make More Miles on VHF (MMMonVHF) and
its readers would like to thank Maurice for all his years of
devotion and info to the DX community. SOURCE: Ohio/Penn DX Bul.#959

May 13th the team will start travelling to Mauritius. If all will go well we can be QRV Moonrise May 15th. TX frequency is 144.124MHz and 3B8EME always tx 1st. We will give priority to callers who have a record of dxpeditions or another contribution to moonbounce or to this expedition. Some tips to makes it more easy for us to work you: Add 3B8EME and LG89qt to your call3. Please call us when you CAN copy us. No need to have a good decode from us, you will decode us when we call you. DON'T stop calling us when we are in QSO with some one else, after a QSO we will call the next station but only if he was TX'ing the period before. Don't hop around, choose a freq to call us and stay there for a while. If you stop TX'ing, listen the next period and then change freq if you want. We will not TX 73, if a QSO is complete by RX'ing 73 from you we call CQ or another stn. (QSO is complete if both stations received both calls, a report and one or more R) Please send 73 after you got our RR, its good to know for us that we can call the next station. From time to time we have to turn antenna's (by hand); we have to stop 1 or 2 periods TX'ing than, please continue calling: we will RX! Condx will be vy good from our start, so don't wait till the end of the expedition to call us! Later in time condx will be not so good and sometimes we will be away for swimming with dolphins or explore some ancient dodo bones Hope to see you ! SOURCE: The Team of 3B8EME, direct to MMMonVHF

Foto on the Front of MMMonVHF is taken at the AIRPORT Dï¿½sseldorf (not Weeze, hi, Massimo (Insider...)) just before the departure to DUBAI of Rene, Eltje and Johan in afternoon of 13rd may... (PA4EME and DL8EBW from MMMonVHF Team made a small meeting there)

The next DL1YMK EME Event will take place from Thursday, 13.05.2010 until Sunday, 23.05.2010 - LATEST NEWS from the M&M Team, dated 2010 05-08: Hello lunatics, due to some confusion the timetable on OK1DFC homepage created recently here again the actual and latest operating plan with the following meanings:
First column: date
Second column: our moonrise with windows to Asia/Pacific/VK
Third column: our window to US East
Fourth column : our window to US West
Fifth column: our moonset
Sixth column: planned operating band
13.05.: 0230 ï¿½ 1020 ï¿½ 1300 ï¿½ 1730 / 23 cm random
14.05.: 0300 ï¿½ 1130 ï¿½ 1400 ï¿½ 1900 / 13 cm random
15.05.: 0340 ï¿½ 1240 ï¿½ 1500 ï¿½ 2000 / 23 cm
16.05.: 0440 ï¿½ 1300 ï¿½ 1540 ï¿½ 2100 / 70 cm random (ATP)
17.05.: 0600 ï¿½ 1440 ï¿½ 1640 ï¿½ 2140 / 13 cm
18.05.: 0700 ï¿½ 1540 ï¿½ 1740 ï¿½ 2200./ 23 cm JT skeds??
19.05.: 0840 ï¿½ 1700 ï¿½ 1900 ï¿½ 2240
20.05.: 1000 ï¿½ 1800 ï¿½ 2000 ï¿½ 2240
21.05.: 1120 ï¿½ 1900 ï¿½ 2100 ï¿½ 2300 / 13 cm
22.05.: 1240 ï¿½ 2000 ï¿½ 2300 ï¿½ 2320 / 23 cm Dubus
23.05.: 1420 ï¿½ 2100 ï¿½ 2315 ï¿½ 2330 / 23 cm Dubus
The first day on each band is random only; then we are open for skeds. Requests please direct to dl1ymk at aol dot com.

Some were asking for 70 cm skeds, so we decided to arrange sked slots on 432.045 on 19th of May. The first sked is at 18.30UT, if any interest please contact me via email. Vy 73, M&M team, ready for take off - SOURCE: SOURCE: DL1YMK via MoonNet

LATEST NEWS from the M&M Team, dated 2010-05-13:
Michael is QRV on 1296,045 and producing great signal 559 from his mysterious EME DX pedition. Big pile up now on. GL to all.
SOURCE: Zdenek, OK1DFC via MoonNet
At his Webpage he opened the "secret" - UR2 is the DXCC ;-)

Sebastian, DG5CST, will be at holiday end of july in Norway and try to be qrv in holiday style around JP30/JP31/JP22 area. Plans looks that he might be active during some free time in evening and early morning hours from 30.7 to 31.7 at JP30si - maybe 31st to 1st at JP31 and later 1st to 2nd august than at JP22ne. Rig IC706 + 170w (maybe 350w Pa) + 11el Flexa-Yagi. So that is the plan for now but maybe he can as well be at other locations. PLEASE remember - thats a holiday trip and so 1st priority will be the holiday style which might be not allow to get on the air at all!
SOURCE: tnx to Sebastian, DG5CST direct to MMMonVHF

** ACTIVATING DL88 and DL89 **

The K5N saga continues! The K5N Activation Group has applied for a "Special Use Permit" from the Big Bend National Park to activate DL88 on 6M. DL88 is a very rare grid located at the very bottom of the Park. We have received a verbal OK from a Park official on our permit. However, the Park has a "No generators in the Outback" rule, so we will not be able to run a generator while we are in the Park. We plan to use two large battery banks--running from one and charging the other from a vehicle alternator. We will be operating from campsite Talley2 in the Park, which is just South of the DL88 line. Talley2 is located at DL88jx just off Talley Road. We will be using an ICOM Pro2 with a TE Systems brick amp and a 6M5X ant. We will NOT have Internet or cell phone coverage, but there is a 2M repeater in the area that belongs to the Big Bend Amateur Radio Club We are hoping that we can get someone from their club to help us put messages out on the Internet. After the DL88 operation, we will activate DL89. Find all details about that 50 MHz activity , times team and so on at: http://www.mmmonvhf.de/latest.php?id=3229

** 9H / JM75 **

Ciao guys and gals! Its OH1MN Markus here... just short info about my trip to Malta... 9H3MK - Markus, OH1MN will be visiting the island of Malta. (IOTA EU-023, MIA MM-001, WLOTA LH-1113) from 19th June to 3rd July, 2010. Will work holiday style, When time and XYL allows will be on air as 9H3MK. :) Equipment will be for 6-80m SSB DIGITAL. QSL via OH1MN. 73 SOURCE: Markus OH1MN / 9H3MK via SRT-News

** 3C9B and 3C0C activity on HF and 50 MHz **

If no setback or causes beyond our control, in mid-May start off Equatorial Guinea. Before traveling to Annobï¿½n 3C0C we take a DX pedition to Equatorial Guinea, Bioko Island AF-010, with the indicative 3C9B. The operation will take place over three days and we will be active on SSB, CW and RTTY. The exact dates will announce shortly. Here in Bioko, we collect all our needed supplies to live on the island of Annobï¿½n for 14 days, then depart to 3C0C. We thank all those who are helping us, Associations, Clubs and individual, that Annobï¿½n Expedition and also the island of Bioko is a reality, thanks to everyone.
Elmo, EA5BYP and Javier, EA5KM will be active from Annobï¿½n Island AF-039 in May 2010 (the dates will be published asap). We'll operate 6 to 160m in CW, SSB and RTTY with an emphasis on the low bands and CW. We'll try to be active with two stations but remember that we'll be only two operators, so please be patient. During the operation from Annobï¿½n, we have not internet connection, so the logs will be published after the dxpedition. You can contact us at mail. Thanks and see you in the pile-up.

** SABLE ISLAND (CY0) next trial... **

UPDATE: The operational dates for the DXpedition to Sable Island have been set for 22 October-1 November. AA4VK/CY0, AI5P/CY0, N0TG/CY0 and WA4DAN/CY0 will be active on 160-6 metres CW, SSB and RTTY, with a "minimal effort for supplying the mulitiplier" during the CQ WW DX SSB Contest. All QSL requests via N0TG (an Online QSL Request System will be available). Individual contributions to assist the DXpedition are still appreciated. Further information and updates at www.cy0dxpedition.com

** San Andres Island, HK0, back on Air **

GRID - EK92dm / IOTA - NA 33 / Lighthouse Society - SAP 002 / WLOTA - 2990 - LATEST NEWS from K7BV Dennis, dated 2010-05-13:
Hi guys! 5J0BV dates extended-now June 9-23. May the Es be with us!
SOURCE: Dennis, K7BV, on KST-Chat

** TC07DX - IOTA **

IOTA: A team of Czech operators will activate the Turkish Island of Suluada in the Mediterranean Sea using the special callsign TC07DX between May 15ï¿½19th. Operators mentioned are: Pavel/TA2ZAF (OK1MU), Vlada/OK1CW, Franta/OK1DF, Zdenek/OK1FIA, Slavek/OK1TN, Zdeno/OK2ZW and Honza/OK2ZAW. The group will have two stations on

the air using CW and SSB, with some planned hours of operation on
RTTY. Radio equipment to be used are: two IC-746PRO and two
TS-480SAT with two 800W amps. Antennas are: 5 band Spiderbeam, multi
band vertical AV-640, loops for 30/40m, 2 elements on 50 MHz HB9CV
and trapped dipole for 20/15/10 meters. QSL via OK2GZ, by the Bureau
or direct or via E-mail request. In case of an InterNet connection
on the island, they plan to have online logs updated regularly.
